

5th July 2021

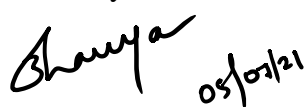

Experience Letter

This letter is to certify that **Vinay Kumar Srivastava, Department of Mechanical Engineering, IIT Kharagpur**, has successfully completed his summer internship program for a period of 2 months beginning 1st May 2021 at IIM Udaipur. He worked on parsing information from corporate disclosures on Instagram using manual and machine learning methods. He built the project ground-up and showed a clear increase in his understanding of the topic and the skill set required to achieve the targets set for him. He showed a lot of enthusiasm and diligence.

During the internship tenure, Vinay consistently worked hard to achieve the targets on time. His ability to understand and execute the tasks with minimal interaction and almost no monitoring was outstanding. He communicated clearly and was open to learning and improving whenever he received some feedback. His discipline and task-orientation helped us steer through the issues that usually crop up in remote working setups. He is clearly highly self-motivated.

I see Vinay maturing into an excellent team player, with the ability to learn and lead. I wish him all the best for his future endeavors.

Sincerely,

Bhavya Singhvi,

Assistant Professor,
Finance and Accounting Area
Indian Institute of Management Udaipur
